

DOG SPAY

Spaying provides important medical and behavioral benefits. It eliminates the risk of uterine infection (pyometra) and significantly reduces the risk of mammary cancer. It also prevents heat cycles, which can lead to behavioral changes. Spay your pet to support a healthier, happier life.

PRICING BY WEIGHT

3 lbs - 30 lbs **\$190.00**

31 lbs - 69 lbs **\$220.00**

70 lbs - 95 lbs **\$250.00**

96 lbs - 120lbs **\$280.00**

**\$25 ADDITIONAL FEE
FOR ALL BRACHYCEPHALIC BREEDS**

THE CHEW *Difference*

*Why Does CHEW Cost More
than other nonprofits?*

CHEW is not a high-volume. By limiting our surgical schedule to approximately 10 patients, we can provide individualized care, close monitoring, effective pain control, and IV access for fluids or emergency medications.

Included!

24 HOUR PAIN INJECTION

Long-acting pain reliever to keep your dog comfortable.

PAIN MEDICATION

Take-home pain medication included for continued comfort.
