

CAT SPAY & NEUTER

CAT SPAY

\$120.00

Spaying provides important medical and behavioral benefits. It eliminates the risk of uterine infection (pyometra) and significantly reduces the risk of mammary cancer. It also prevents heat cycles, which can lead to behavioral changes. Spay your pet to support a healthier, happier life.

CAT NEUTER

\$90.00

Neutering provides both medical and behavioral benefits. It eliminates the risk of testicular cancer and reduces prostate disease. It can also decrease marking, roaming and aggression. Neuter your pet to support a healthier, happier life.

THE CHEW *Difference*

*Why Does CHEW Cost More
than other nonprofits?*

CHEW is not a high-volume clinic. By limiting our surgical schedule to approximately 10 patients per day, we provide individualized care, attentive monitoring, effective pain management, and IV access for female cats if fluids or emergency medications are needed.

Included!

24 HOUR PAIN INJECTION

Long-acting pain reliever to keep your dog comfortable.

PAIN MEDICATION

Take-home pain medication included for continued comfort.
